

The Tablet PC in the Classroom: Introduction

Steven C. Myers, Tablet PC Evangelist
A CELT Interactive Workshop,
The University of Akron, April 7, 2008
10:30 AM – 11:30 AM
SU 310

Laptop = Tablet PC - Pen
Tablet PC = Laptop + Pen

Everything that runs on a laptop,
runs on a Tablet PC.

Add a pen to your laptop and watch your
productivity soar.

Objectives of this Workshop

- Using the Tablet PC as a Whiteboard
- Inking in various applications
- Electronic Grading and Markup
 - Bluebeam Revu
- Managing your workflow
- Join UAdig discussions

Three Key Components of a Mobile Learning Technology Environment

Claim: Mobile learning technology use will

- Yield improvements in student learning and engagement
- Increase the Efficiency of Instructor Time Spent on Instruction

Three Level Assessment The Tablet PC ...

1. Supports greater efficiency, but does not change the curriculum.
2. Changes the curriculum and invigorate teaching and learning, but this could have happened without the Tablet PC.
3. Change the curriculum with an impact that can only be achieved with Tablet PCs.

GoZips.UAkron.edu/~myers/UAdig

UAdig The University of Akron
Digital Ink Group

Welcome to The University of Akron Digital Ink Group:

Mission: To constantly explore the use of technology in the teaching and learning process, to support by conversation the innovators and early adopters of classroom technology especially in the new arena of Digital Ink Technology.

Who can join: Any faculty or staff member involved in the teaching and learning process who will contribute to the conversation about the uses of innovative classroom technology. Also students who are interested or participants.

How to join: There is an email discussion list for this group called UAdig@lists.uakron.edu.

Why Bluebeam?
Bluebeam PDF Revu was designed to make your life easier with simple PDF creation, markup and editing features. When using Bluebeam you will soon come to realize the ease of use and functionality provided with our software. Bluebeam PDF Revu integrates with MS Office programs for one button file creation and includes the Bluebeam PDF printer to create a PDF from just about anything!

PDF Editing
PDF Editing saves time by allowing you to change the PDF without recreating it from the original file. Easily edit the PDF by adding or deleting text, customizing the font and font color, changing the layout and more. PDF Page Editing gives you the ability to add blank pages, delete, extract and rotate pages as well as copy and paste true text from your PDF into Word and other MS Office files.

One-Button Creation
After installation, Bluebeam will integrate into your MS Office programs (Word, Excel and PowerPoint) and install three buttons at the top of your Office interface. With the click of a button, your PDF is created. Bluebeam PDF Revu will open the PDF so you can view it, add markups, edit and so much more. [More info](#)

Revu
Bluebeam's professional PDF markup, PDF editing and PDF viewing software. [More info](#)

PDF Markup
Included with the Bluebeam PDF creation software is Revu for PDF markup and editing. Bluebeam PDF Revu is redesigned to be incredibly easy to use. Within Revu, you will find an extensive list of markup tools including a pen, highlighter, tpeewriter, text box, symbols, images and stamps to customize your PDF. Included with this helpful application is the option to save frequently used tools in "My Tools" for easy access and quick marking up. Also, each PDF created using Bluebeam follows the PDF standard and is readable from any PDF viewer accommodating you and your affiliates.

Tablet PC
Bluebeam includes features specifically designed for Tablet OS users who are looking for a quick way to review and annotate PDF files with the ease of their Tablet pen. [More info](#)

Digital Signatures
Create digital signature fields, certify documents and add digital signatures to PDF files. Bluebeam's intelligent technology can detect if the file has been altered after being signed so you can send your secure documents with peace of mind.

Bluebeam Stapler
The Bluebeam Stapler is a stand-alone program that effortlessly binds many different types of documents. With Stapler you can combine a number of different files ranging from Office documents to images files. Stapler allows you to

Bookmarks and File Attachments
Advanced PDF features in Revu allow you to customize your PDF to create a polished document. Bookmarks can link to PDF pages, hyperlinks, separate files or an area of a PDF page. [More info](#)

Features

- PDF creation from any Windows or CAD application
- PDF markup, PDF editing, and PDF viewing with Revu
- Adds Bluebeam buttons to MS Office toolbars for one click conversion
- Creates PDF booklets with Bluebeam Stapler
- Conversion to nine other formats including TIFF, JPEG, Bitmap, GIF, PNG, PSD, EMF, WMF and PCL
- Special predefined settings for top CAD applications
- Adds Bluebeam buttons to AutoCAD LT toolbar
- PDF security and digital signatures
- File attachments

Mobile Learning Presentations

Mobile learning technologies enhance presentations by allowing presenter to annotate simply and easily.

Three most common presentation tools:

- Digital Ink in PowerPoint Presentation
- Digital Ink in Microsoft Office Suite (Word, Excel, Outlook)
- Microsoft Journal

Use Ink in Email (outlook)

Demo of Journal

Journal files *.jnt

- Can be created from the blank page

Or

- You can 'print' to journal from any application.

Demo of Bluebeam Revu

- Open
- 'print to'
- 'send to'
- Icons installed in office
- Use a blank page

Steps of Electronic Grading

- Student submits (hand written)
 - Scanned
 - Faxed
 - Digital server / copier
 - Or from their Tablet PC
- Instructor receives
- Instructor marks up
- Instructor returns to student

Steps of Electronic Grading

- Student submits
- Instructor receives
 - Save in preferred marking format
 - Using naming convention
- Instructor marks up
 - Uses Journal or preferred pgm
 - Saves to PDF and return
- Instructor returns to student

Electronic Markup of a quiz

The University of Akron
Department of Economics
Statistics for Econometrics, Dr. Myers
Pop Quiz

Name _____
UAnetID _____

October 9, 2006

1. Tell why the following is or is not a pdf?

x	f(x)
0	0
1	.1
2	.2
3	.3
4	.4

because it meets postulates
of probability
 $0 \leq f(x) \leq 1$
and $\sum f(x) = 1$

The chart is a probability density function because it lists the values of $f(x)$ for each value of x , thus fitting the definition of a pdf.

not enough.

Electronic Markup using a rubric

Responding to students is much more natural

- Written on Tablet Using MS Journal
- Saved as Adobe Acrobat pdf file
- Posted or returned to students

An increase in price of hotdogs causes less demand for mustard.

Price increase caused movement along the hot dog demand and causes a decrease (or leftward shift) in the mustard demand.

Responding to students - snipping a question and explaining the answers.

What is the size of consumer and producer surplus at equilibrium?

Note Title 6/2/2006

WebCT Quiz

Percent Correct	Student Response	Answer Choices
0.0%		<input type="radio"/> larger than
0.0%		<input checked="" type="radio"/> equal to
0.0%		<input type="radio"/> less than
100.0%		<input type="radio"/> None of these answers are correct.

- ① Each of these markets above are in equilibrium.
- ② Then only answer d is correct.
